

Fresh Farm Raised P&D Shrimp

ALL NATURAL

**Free of chemicals, antibiotics,
hormones and never treated
with preservatives.**

Your search for sustainably sourced shrimp is over. **Blue Foot White Shrimp** is farm raised in an eco-friendly environment on the coast of Ecuador. Tropical's shrimp farm, Chanduy, is directly adjacent to the sea and is recognized for producing the most delicious, world-class shrimp for the last 30 years. The ponds receive an infusion of fresh ocean water with every new tide, creating a natural habitat and resulting in a uniquely succulent and sweet flavor.

Chanduy produces their own post larvae from the healthiest stock to ensure a premium product and minimize their environmental footprint. The scale of the farm (3,500 acres) allows the shrimp to be raised in a low-density environment avoiding overcrowding and promoting good health. **Blue Foot White Shrimp** are all natural – free of chemicals, antibiotics and hormones.

As a vertically integrated company, we have full control over every step of our operations and guarantee 100% traceability. Chanduy undergoes an annual audit by the Swiss-based Institute of Marketecology (IMO) to ensure sustainable practices and eco-friendly products.

Harvested around the clock and shipped 24 hours from harvest, **Blue Foot White Shrimp** is the freshest, tastiest shrimp available on the market - never treated with preservatives to mask freshness!

Conveniently packaged in 1-gallon (8 Lb.) tubs (sold in 4-tub masters), **Blue Foot White Shrimp** is available as P&D (peeled and deveined) and in a variety of sizes. This product is ready to use as soon as they come out of the tub – it doesn't get any easier!

GIVING BACK

Environmental stewardship is a key component of everything we do. We have committed to contribute to the conservation of Ecuador's fragile Galápagos Islands by making a donation to the Charles Darwin Foundation for every pound purchased of this product. Management programs of the Charles Darwin Foundation continuously research and monitor both the native and endemic species of these islands.

Say goodbye to tedious cleaning, contribute to an important cause and discover the culinary excellence of **Blue Foot White Shrimp**.
